

79-04 Reaper Pistol Grip Shift Handle Installation

Tools/Supplies:

Basic hand tools.

Parts:

(1) Shift Handle

(1) M12-1.75 Jam Nut

(1) 3/32 Allen Key

(1) 10/32 x ¼ SS Set Screw

Estimated Time:

5 Minutes

1. Remove factory shift knob by unscrewing it.
You can use either or both of the next 2 steps to secure your shift knob
2. Thread the jam nut on to the shift handle then screw the knob on. Tighten the jam nut against the shift handle to lock it in the position you desire.
3. Screw the shift knob onto the shift handle then using the provided set screw and allen key tighten the set screw locking the shift knob into the position you desire.
